The Columbus Foundation

2011 Financial Report
On behalf of the Governing Committee and the staff of The Columbus Foundation, we are pleased to present our Financial Report, summarizing our financial health in the 2011 fiscal year.

Created in 1943 by residents committed to building a better future for central Ohio, the Foundation has a distinguished history of helping donors strengthen and improve their communities through effective charitable giving. We are committed to serving as trusted advisors and stewards of the legacies created through the Foundation.

The prudent management and oversight of assets entrusted to the Foundation are central to our operating philosophy. Our assets are allocated to a variety of professional money managers, carefully selected to provide you with choices of prudent investment. Careful oversight of the assets is provided by the Foundation’s nine-member Governing Committee along with our Audit and Investment Committees. Our staff is comprised of three attorneys, two CPAs, and many others with professional, nonprofit, and management experience.

The Foundation is well positioned to honor your charitable intentions, and we remain dedicated to offering you maximum value, and helping you achieve your charitable goals.

Respectfully,

DAVID R. MEUSE
2011 Governing Committee Chair and CEO

DOUGLAS F. KRIGLER
President and CEO
By all measures, 2011 was a record year in the amount of contributions made to The Columbus Foundation. A significant gift to one of the Foundation’s Supporting Foundations was the major reason for this historic level. As a result the Foundation’s combined assets increased to nearly $1.2 billion. 

The investment climate during 2011 was extremely volatile and it should be no surprise to the reader that over the past four years the financial markets, and in particular the equity markets, experienced significant turmoil. The recovery from the Great Recession of 2008 that was experienced in both 2009 and 2010 stalled in 2011. As a result, many of the Foundation’s funds and Supporting Foundations experienced negative investment returns. The Foundation continues to listen carefully to the valuable advice of its many financial advisors, investment managers, and experienced Investment Committee to “stay the course.” This advice is consistent with the Foundation’s historic investment practices to invest with a long-term horizon and not succumb to the inevitable market volatility and fluctuations.

For 2011, the Foundation’s operating budget as a percent of its asset market value was just .65% (less than one percent) and continues to be one of the lowest of other similarly sized community foundations across the country. The Foundation believes that in fulfilling its mission to provide its donors with effective philanthropy, it must also be efficient.

SIGNED,

RAYMOND J. BIDDISCOBEMBA, CPA
Senior Vice President /CFO

CATHERINE K. VRENNAMBA, CPA
Controller

The Columbus Foundation, its Governing Committee volunteers who serve on its many committees, including the Audit and Investment committees, and staff are all focused on achieving our donors’ goals of maximizing the impact of the grants made in our community providing the highest stewardship in overseeing the assets entrusted to us to meet the future and changing needs of our community.
The combined assets of The Columbus Foundation and its related entities ended 2011 with a total market value of $1.191 billion. This was an increase of $130 million over the prior year’s ending market value of $1.06 billion. 2011 investment results were disappointing and as a result, all of the increase in market value was the direct result of the historic amount of contributions received in 2011.

The Foundation’s commitment to “stay the course” and to invest its assets with a long term horizon continues to be the cornerstone of its investment practices. The Columbus Foundation’s Governing Committee, staff and many investment managers continue to inform Foundation donors about the importance of maintaining a long-term perspective and to recognize that market volatility appears to have become the new investing norm.

Since its beginning in 1943, The Columbus Foundation has grown to be one of the nation’s largest community foundations. As the accompanying chart indicates nearly half of its growth has occurred over the past decade. This growth is not only an indicator of how charitable our community is; it is also an indicator of the dedicated stewardship of the Foundation’s Governing Committee, its many committee volunteers, and its staff.

| We make a living by what we get, but we make a life by what we give."" —WINSTON S. CHURCHILL |
The Columbus Foundation Investment Policy varies by type of fund—permanent (principal held in perpetuity), and non-permanent funds (principal may be spent). This approach is somewhat unique and is due to the multiple categories of Foundation assets and their spending practices. As of December 31, 2011, the Foundation had more than 30 asset managers and two brokerage firms used primarily to accept stock gifts.

Permanent funds, which include component funds covered under the Foundation’s “spending rule”, are invested utilizing a 50 to 80% equity exposure. No-load mutual funds are selected by the Foundation’s asset managers as well as a select group of funds from the Vanguard Family of Mutual Funds, are used to invest these Foundation assets.

Non-permanent foundation assets, which are primarily Donor Advised and Organization Endowment funds, are invested based upon the donor’s expected time horizon for suggesting distributions from their fund. This fund’s assets may be invested with equity exposures that can have: 0%, 30-40%, 60-70% and up to 100% equity exposure. No-load mutual funds selected by the Foundation’s asset managers as well as a select group of funds from the Vanguard Family of Mutual Funds, are used to invest these Foundation assets.

Donor Advised Funds, which account for over 16% of the Foundation’s assets typically have large allocations to money market funds and/or bonds. Liquidity is a very high priority to permit weekly suggestions from a donor’s fund. The Foundation allows donors to choose from the many investment firms, banks and other financial institutions the Foundation works with to invest Foundation assets that are held in their Donor Advised Fund.

While this may appear inefficient, it does aid in the development of new relationships and the marketing of the Foundation’s community work. The Foundation’s investment practices for Donor Advised Funds are a unique blend of fiscal oversight and a marketing resource.

Greatest Needs (Unrestricted), Field of Interest, Designated and most Scholarship funds, for investing purposes, are classified as permanent funds and invested under a “total return” policy. With the help of the Foundation’s Investment Committee an investment policy was developed and periodically updated. A spending policy utilizing a rate approved by the Foundation’s Governing Committee and applied to the calculation of an average of thirteen quarters of market values is used to determine annual “spendable income”.

Supporting Foundations, which are separate legal entities, have separate boards of trustees that develop, implement and monitor the investment policy to meet its specific grantmaking practices. These entities often hold unique assets including closely held stock, limited partnership interests, real estate and other “non-traditional” assets. Most adopt policies that are intended to preserve the corpus of the Supporting Foundation’s assets. Some are established as estate planning vehicles and still others are established and utilized solely for current grantmaking funded by annual contributions.

“The Columbus Foundation’s Investment Committee, which is comprised of local business and investment professionals, provides independent expertise to assist Foundation staff and its Governing Committee in the prudent investment of the assets entrusted to them. Working with the Foundation’s many investment advisors the Foundation’s Investment Policy is continuously and rigorously reviewed and modified if needed to provide clear guidelines and goals for the long-term investment of Foundation assets.”

—MATTHEW D. WALTER, FOUNDER OF TALISMAN CAPITAL PARTNERS, LLC., INVESTMENT COMMITTEE CHAIRMAN, AND GOVERNING COMMITTEE MEMBER

“The Columbus Foundation takes seriously its role as the financial steward of the assets entrusted to it by its many current donors and those donors that have chosen to leave a permanent legacy for our community. The Foundation’s Audit Committee is pleased to be a part of the fabric of this work by assisting staff and the Foundation’s Governing Committee in attaining the highest level of reporting of the Foundation’s operations and financial position.”

—ROBERT R. MCMASTER, CPA AND AUDIT COMMITTEE CHAIRMAN

The Columbus Foundation engages an independent public accounting firm to perform annual audits of its records and financial statements and those of its related entities. The Foundation’s complete audited financial statements may be found on our website, columbusfoundation.org.
In 2011, $106.2 million in grants were paid to nearly 2,400 separate nonprofit organizations. While nearly 80% of the Foundation’s grantmaking was distributed to central Ohio nonprofit organizations, the Foundation also distributes dollars to organizations throughout the state of Ohio and across the country.

Columbus Foundation donors reside in 55 Ohio counties and 37 states. Donors have a variety of fund types to choose from that can provide them with maximum flexibility, enabling them to support the causes they care about—in central Ohio and beyond.

As the chart below indicates, the Foundation’s overall grantmaking focus continues to be in the areas that help to meet the basic needs of central Ohio’s residents, e.g.—education, health, and social services. Foundation grantmaking over the last several years has continued to be approximately 10% of its beginning market value.

The Columbus Foundation’s competitive grantmaking program supports opportunities in four major areas that address community needs and invest in solutions that strengthen and improve our community.

**Fund for Community Improvement**
- Community Improvement Project grants support a concentrated initiative to advance progress over a longer term in an identified area of community need. The Weinland Park Neighborhood Revitalization Project is the current priority.

**Fund for Innovative Operations**
- **Arts & Culture** grants support arts organizations whose initiatives meet community needs, expand arts and cultural programming, and provide education.
- **Capacity Building & Leadership Development** grants support high-performing organizations that boosts efficacy among nonprofits and their staff.
- **Continuous Improvement** grants focus on increasing the capacity to meet community need, improving program quality, inspiring innovation service delivery, and strengthening institutional infrastructure. The Ohio Benefit Bank, a program of the Ohio Association of Foodbanks, is the current grantee.
- **Financial Innovation** supports nonprofit leaders and their organizations to adapt to the new economic reality by funding transformative and pioneering ideas that demonstrate social innovation, social enterprise, and partnerships and mergers.

**Fund for Capital Improvements**
- Due to the economic climate, The Columbus Foundation has suspended grantmaking for capital campaigns and capital projects. This allows the Foundation to focus more grantmaking resources on social enterprise partnerships, and mergers.

**Fund for Targeted Needs**
- **Traditional Grants** focus on Basic Needs, Developmental Disabilities, and Disadvantaged Children.
- **Small & Specialized Grants** support several areas that align with donor focus including animals, chamber music, education, health, and neighborhoods. Grants are also available to support several counties outside of Franklin County.

Our vision for greatest needs (unrestricted) grantmaking

In partnership with our donors and the nonprofit community, The Columbus Foundation supports all opportunities to achieve the highest quality of life.
